

ROHITH N

Flutter Developer

📍 Kerala, India | rohith18n@gmail.com | 📞 +91 9061624061 | [LinkedIn](#) | [GitHub](#)

Professional Summary

I am an experienced mobile app developer with expertise in building cross-platform applications. Skilled in state management, third-party integrations, and database implementation. I am a quick learner, always eager to expand my knowledge and skill set. As a team player, I'm excited to collaborate with others to create amazing applications.

Technical Skills

- **Languages & Frameworks:** Flutter, Dart, REST APIs, WebSockets, HTML5, CSS3, Bootstrap
- **State Management:** BLoC, GetX, Provider
- **Backend & Storage:** Firebase (Auth, Firestore, Storage, Realtime Database), Hive, SQFlite
- **Tools & IDEs:** Android Studio, Visual Studio Code (VS Code), Xcode, App Store Connect, TestFlight, Git, GitHub, Postman, Figma, Canva, Notion
- **Deployment:** Apple AppStore, Google Play Store, Amazon AppStore, Netlify
- **Other:** Data Structures & Algorithms (DSA)

Professional Experience

Infoskies (Remote – Bangalore Based)

Flutter Developer

Apr 2024 – Present

- Built and maintained multiple Flutter apps for clients in e-commerce and healthcare.
- Collaborated with UI/UX designers to implement responsive designs.
- Integrated REST APIs, WebSockets and Firebase services for real-time features.
- Conducted code reviews and optimized performance for large codebases.
- Followed Agile methodologies with regular sprint planning and retrospectives.
- **Project:** TeleHealings: Mental Care | [AppStore](#) | [Google Play](#)

Flutter Developer (Freelance)

Dec 2023 – Apr 2024

Projects

MessageWise – Social Media App

[Live Link](#) | [GitHub](#)

- Developed a real-time social app using Flutter, Firebase, and BLoC.
- Implemented secure user authentication, post sharing, commenting, and profile customization.
- Achieved modular code separation using BLoC for maintainability.

Technologies Used: Flutter, Dart, Firebase Firestore, Firebase Auth, Firebase Storage, Business Logic Component (BLoC)

WealthWhiz – Personal Finance App

[Live Link](#) | [GitHub](#)

- Built a Money Management application using **Flutter**, **Hive(NoSQL)** database.
- Created a money management app with custom category creation and tracking.
- Utilized Hive NoSQL for fast and efficient local storage.
- Followed MVC for clean separation of UI and logic.

Technologies Used: Flutter, Hive(NoSQL)

Mini Projects

Alarm & Weather App: Provider + SQLite + REST APIs for alarms and real-time weather :([GitHub](#))

To-Do App: MVVM + BLoC with full CRUD and RESTful JSONPlaceholder API integration.:([GitHub](#))

Crypto Watch: Real-time market updates with REST API and BLoC :([GitHub](#))

Netflix UI Clone: TMDB API + Domain-Driven Design for UI-rich streaming interface :([GitHub](#))

Student Data Management App : Built with GetX and Provider (separately), enabling user-friendly CRUD operations and Hive storage :([GitHub](#))

Education

Flutter Development

Prototype, Calicut (Feb 2023 – Dec 2023)

Bachelor of Pharmacy (BPharm)

Kerala University of Health Sciences (2017 – 2021)
